

Public Sector Funding

Grant funding & support

Dr Michael Kipping

Benefiting everyone through knowledge, talent and ideas.

UK Research and Innovation brings together:

- 7 Research Councils
- Research England
- Innovate UK

UKRI CEO: Dame Ottoline Leyser

Innovate UK

Role of **Innovate UK** is to drive productivity and economic growth by supporting businesses to develop and realise the potential of new ideas including those from the UK's world-class research base.

Innovate UK CEO: Mr Indro Mukerjee

ktn

KTN is a network partner of Innovate UK. It helps businesses get the best out of creativity, ideas and the latest discoveries to strengthen the UK economy and improve people's lives.

KTN links new ideas and opportunities from all sectors with expertise, markets and finance through a network of businesses, universities, funders and investors.

Innovate UK EDGE

www.innovateukedge.ukri.org

Innovate UK EDGE is part of Innovate UK's connecting network. It helps growing businesses to:

- manage innovation, commercialise great ideas and grow
- access long-term finance from the public and private sectors
- connect to a network of advisors spanning more than 60 countries
- connect to partners to develop products or services
- expand into new countries with help from local experts

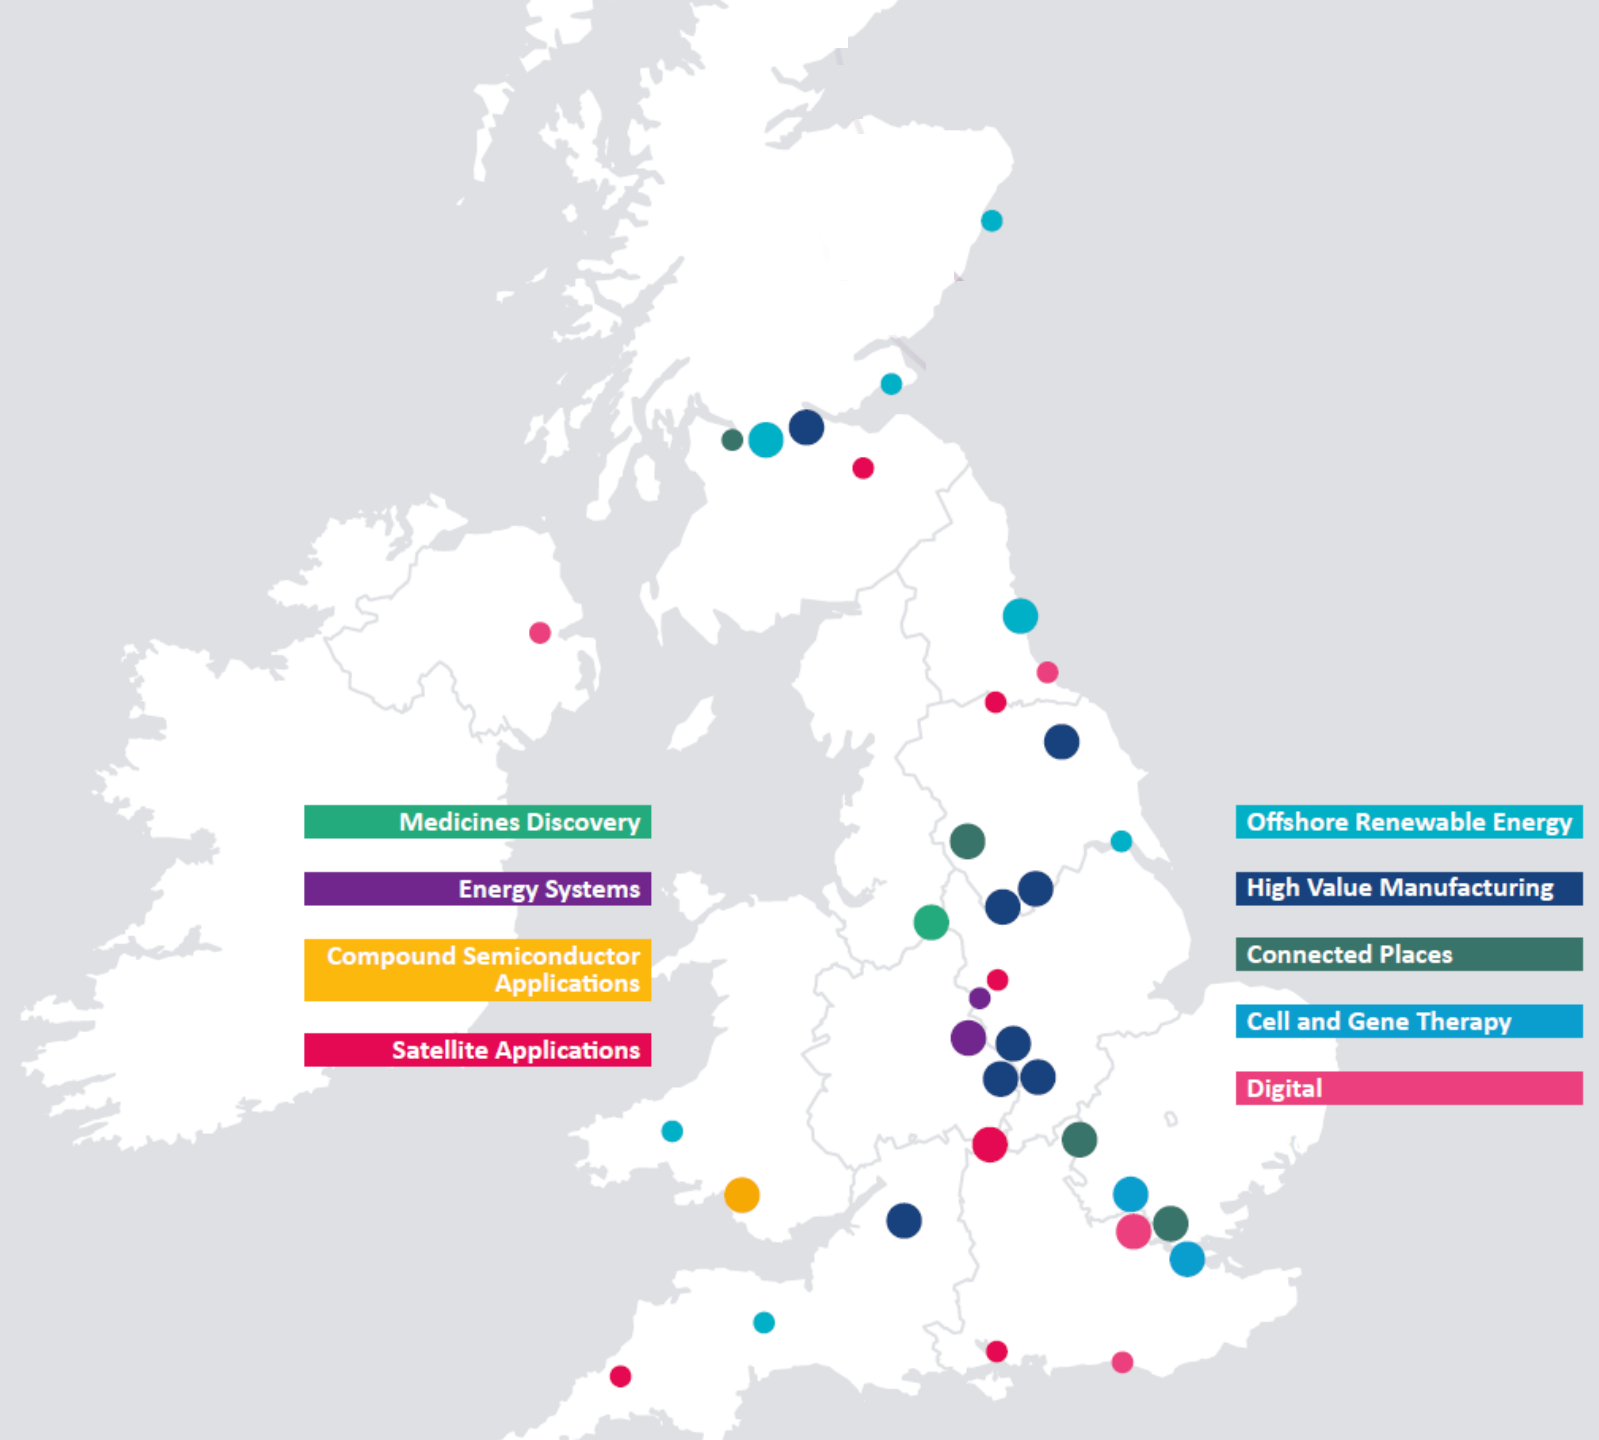

Innovate
UK
EDGE

Catapult Network

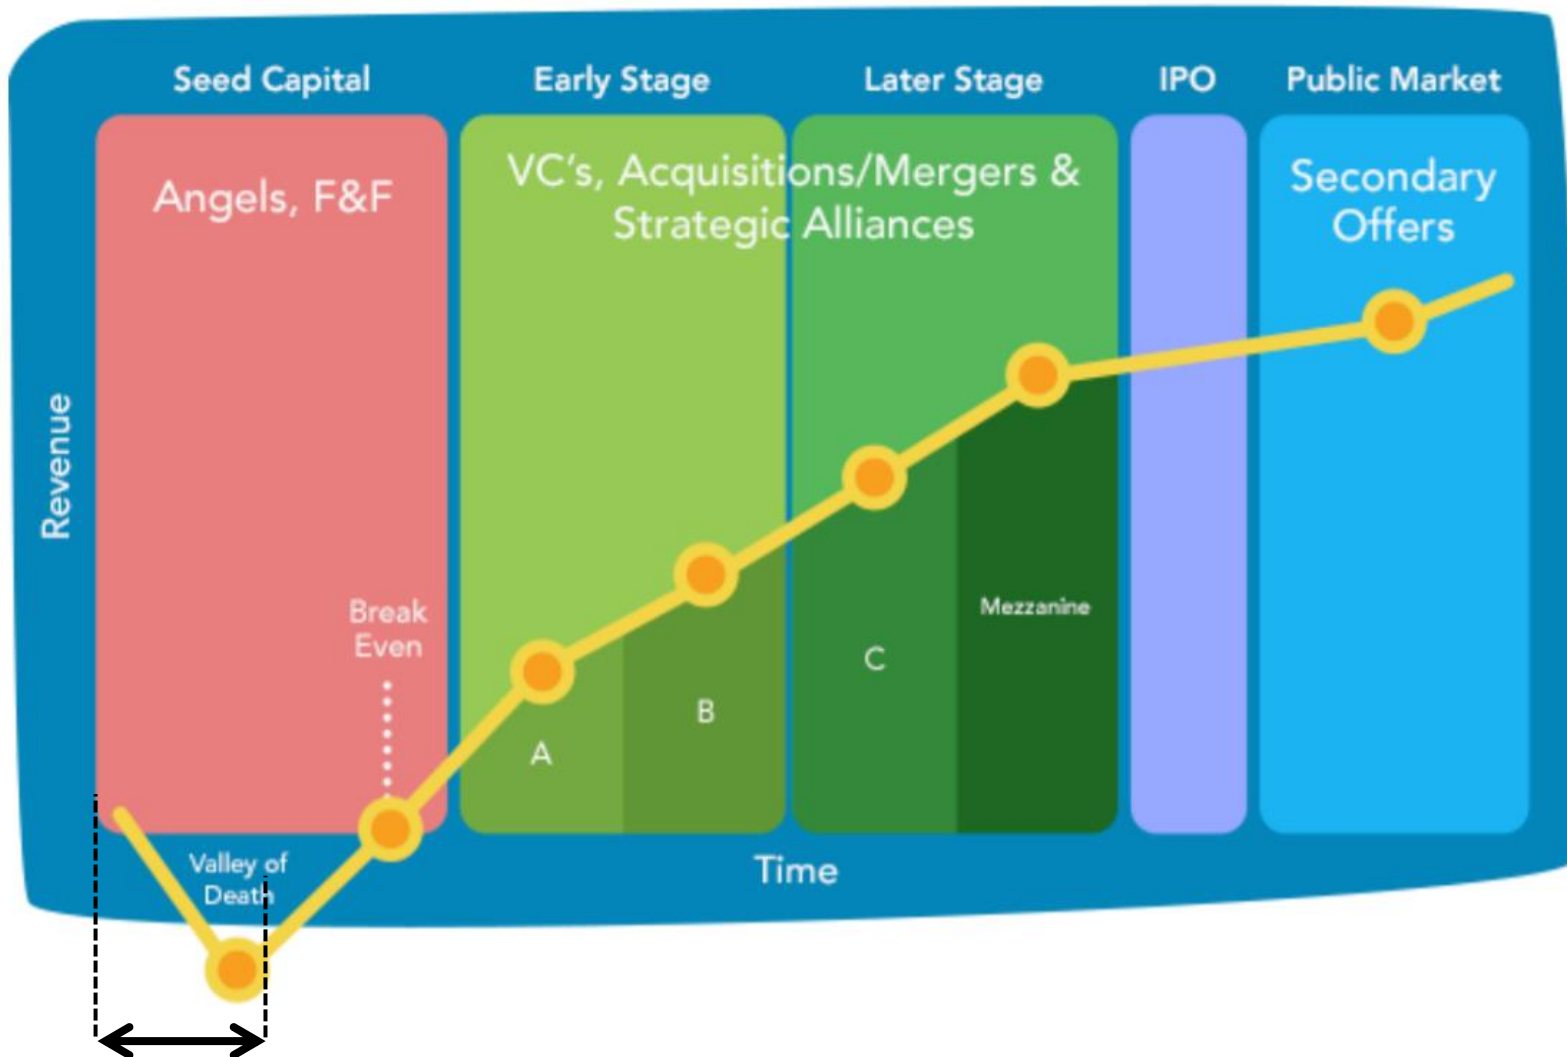

Fostering innovation to drive economic growth

- bridge the gap between businesses, academia, research and government
- transforming the UK's ability to create new products and services
- ensure global opportunities for the UK and sustained economic growth for the future

Support for UK businesses

Innovate funding must avoid market completion with existing investors

Record investment levels in UK life sciences companies but at late Series A / Series B.

We aim to address a 'market failure' at pre-seed / seed for innovative high risk projects/companies

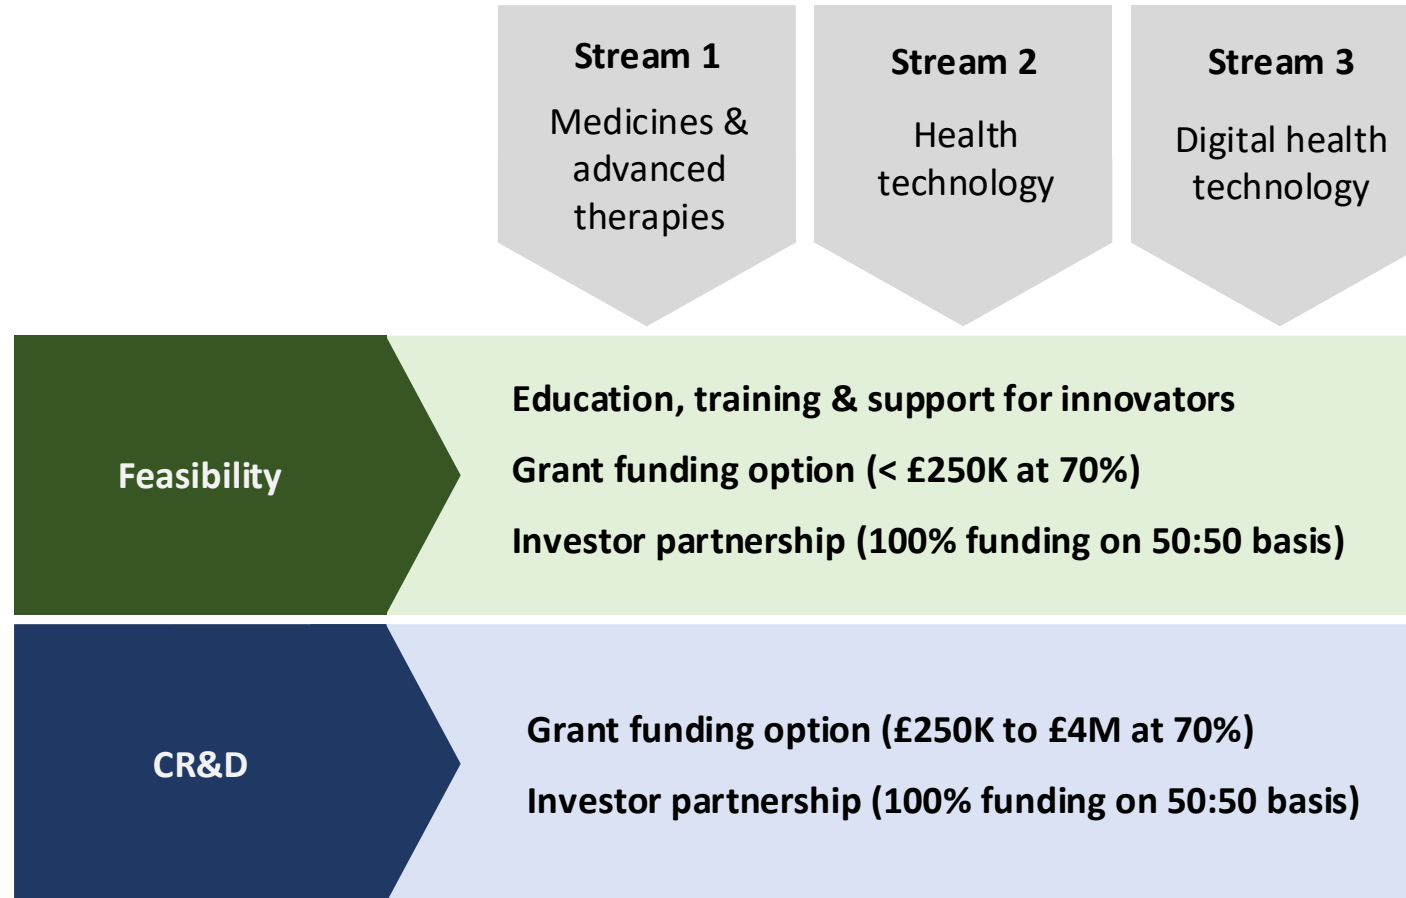

State Aid legislation typically means we can ONLY work in pre-market space

SMART grant funding competition

For businesses in **any** sector

- enables businesses to apply for grant funding regardless of technical or industrial area of focus
- funding for the best proposals in a competitive application process
- 4 open competitions run in 2019/20, offering a total of £100 million funding

Health enabling programme (Biomedical Catalyst)

Examples of what can you use the money for

Regulatory consultancy

Implementation of QMS

Conformity assessment

Design & testing

Intellectual property (≤£7500)

Clinical investigation

Other activities

SBRI: Digital Regulatory Navigation Platform (Health Products)

- £3million competition to develop proof of principle digital regulatory navigation platform
- Particular focus on MDR, IVDR and UKCA
- enable users to understand and explore the regulatory pathways for the product.
- provide users with information and access to UK support structures that are relevant to their commercial R&D, for example, standards, UKAS accredited test labs, and Notified Bodies
- Collaboration with GMDN, SNOMED CT and UKAS
